Creating Our Flask Application And Loading Our Model By Using Load_model Method

Date	11 November 2022
Team ID	PNT2022TMID13691
Project Name	AI-Powered Nutrition Analyzer For Fitness Enthusiasts

Creating our flask application and loading our model by using the load_model method

```
app = Flask(__name__, template_folder="templates") # initializing a flask app
# Loading the model
model=load_model('fruit.h5')
print("Loaded model from disk")
```
